PROPOSED ELECTRICITY CONNECTION TO A WIND GENERATING STATION AT DURNESS IN SUTHERLAND

Dear Mr. Broughton

Thank you for your letter with assessment of your distribution network in our area.

From our discussions I have been asked to clarify some points

1. In the Network reinforcement Option can we be informed of what extra capacity this reinforcement would allow?
2. Regarding the Grid issues and interaction of the connection applications - in the likelihood of the other connection offer is there a time frame when we would have this information?
3. With line reinforcement or circuit rebuild options is this line replacement or is there a replacement of equipment?

At this stage we still clarifying our options and will keep you informed of how we are wishing to progress with our project

Yours faithfully

Ronald Lansley
